Dear [Redacted]

25X1

Thank you for your letter of 21 January 1948 containing further information in regard to possible cases of agency responsibility for repatriation of employees.

It has been determined here that no general ruling can be formulated to cover the appropriate action in all such cases, and that it will be necessary to consider each case on its own merits as separations occur. In each case please forward as soon as possible after the separation action has been resolved upon the complete case history of the individual, with copies of key documents such as the pertinent Egyptian law and the M. A. statement of U. S. assumption of responsibility, as well as such evidence as can be obtained that the employee falls into this category.

In the case of the four employees whose separation is an immediate question, the agency will be willing to meet the expense of repatriation if it is demonstrated to be necessary to do so.

Sincerely,

PKH:bhr
